

## Membership Benefits

ICCAIA brings together a global community of manufacturers and service providers to support and influence the future of the aviation system. Our members represent over three thousand individual companies with a diverse range of products, skills, services and specialties.

Through their membership of ICCAIA, associations can ensure that their members are represented in global policy decisions and their voices are heard on the international stage.

Our members participate in over fifty ICAO groups and panels, representing manufacturers and service providers' views.

ICCAIA's extensive work programme includes Airworthiness, CNS/ATM, Security, Environment and Sustainability and Cybersecurity.

The International Coordinating Council of Aerospace Industries Associations (ICCAIA) is the international organization representing manufacturers and service providers.

Our members are engaged in the design, development, manufacture and in-service support of aeronautical and space products and technologies, including ground-based systems and services.

## Our Vision

A safe, secure, efficient and sustainable international air transportation system, supported by a thriving civil aerospace manufacturing and services industry.

## Our Mission

To foster growth of the world's aerospace manufacturing industry by:

- Supporting the development of effective standards for safe, secure, and efficient air transport
- Growing international civil aviation capacity
- Harmonizing civil aviation policies and regulations to the maximum degree possible
- Providing technical expertise
